Steel Roses 80s Hard Rock & Hair Metal - Who We Are

Steel Roses are 5 musicians who are passionate about the sound of hair and glam metal from the 80s and early 90s.

Songs by Bon Jovi, Mötley Crüe, Dokken, Alice Cooper, Skid Row, Europe, Van Halen, Whitesnake or the all-girl band Vixen are on the program and evoke the memories of the good old days with the flair of the Sunset Strip in LA.

The charismatic lead singer and front woman Tani Rox (Tanja Brunner) provides the unmistakable melodies and hooklines for the band which has its origin in the area of the city of Cologne. With her voice she fascinates the audience today just like the great singers of this era did back then. In connection with the true-to-original sounds and solos by guitarist Dirk Janssen, Detlev "The Doc" Lennartz creates the necessary atmosphere and the bombastic sound walls on the keys. Bassplayer Norbert Westphal and drummer Paul Bandler provide the elementary and genre-typical grooves that go straight under your skin. Combined with the right look, they bring their heroes to life at their thrilling live shows and take their audience on a trip back to the 80s!
